“ AliSto Smart Glass is an exceptional partition system—a unique solution that addresses a diverse array of design challenges

Saurabh Shah,
Founder - Infusion Architects.

Retrofit Privacy Smart Glass Films

A unique solution that transforms your existing glass partition into a smart glass partition.

Retrofit smart film options

- Custom Sizes
- Maximum Sizes 1.5 x 3.6 meter.
- Minimum Sizes 200mm x 200mm.
- Power Consumption 5Watts / m²
- 91% total light transmit terce.
- 2.5% Haze.
- 99.5% UV Block.
- Switch speed : 0.5 seconds.
- 2 Year Warranty

Transformative Switchable Films for Existing Glass

Transform your existing glass into switchable privacy glass with our self-adhesive films. These films offer the same switchable properties as our laminated privacy glass and can be effortlessly installed by our expert team.

Benefits

Save costs on costly glass replacements

Reduce expenses on expensive glass replacements with ALISTO switchable films, which can be easily applied to existing glass surfaces, saving you the cost of replacing the glass.

Get rid of unhygienic blinds

Traditional vertical or horizontal blinds commonly used in offices are not only challenging to clean but also serve as breeding grounds for bacteria, dust, and grime. AliSto switchable films provide complete privacy while maintaining aesthetics and ensuring cleanliness.

Smart Privacy Glass Solutions

Unmatched quality delivered worldwide by specialists in switchable glass.

Privacy smart glass product options

- Custom Sizes
- Maximum Sizes : 1.5 x 3.6 meter.

- Glass thickness : 10mm, 12mm and 13.5mm.
- Switch speed : 0.5 seconds at room temperature.
- 99.5% UV block.
- Glass thickness / decibel rating
10mm / 35 db, 12mm / 37 db and 13.5mm / 39 db.

Enhanced Clarity, Unmatched Performance, Simplified Maintenance

Featuring low iron premium float glass and high-quality German-made hybrid EVA for enhanced clarity and stability, combined with the world's most advanced Polymer Dispersed Liquid Crystal (PDLC) technology for dependable, consistent performance.

Premium Manufacturer and Superior Finish

All glass is processed and finished in-house using the latest machinery and furnaces. Assembled in a climate-controlled cleanroom environment, our glass is tempered and polished as standard, ensuring high quality. Each piece is precision-packed for safe global shipping.

Trustworthy and Steady Operation

Every unit undergoes a stringent series of quality checks, including comprehensive automated electrical tests, to ensure reliable and consistent operation. Our advanced electrical controllers deliver optimal clarity and include multiple fail-safes that can automatically shut down and protect the product, thereby prolonging its lifespan.

Advanced UV Shielding

AliSto smart glass offers up to 99.5% protection against harmful UV rays.

Durable Life

Our raw materials, processing, finishing, testing, and electrical controllers ensure a higher quality, more stable, and longer-lasting product—allowing us to confidently offer a comprehensive 5-year warranty.

Retrofit Smart Films

Vs

Privacy Smart Glass

- Externally applied on glass surface.
- Film exposed to external conditions like humidity.
- Chances of delamination and damage due to several reasons like equipment movement, cleaning methods.
- The electrical contacts on the film are exposed to humidity / condensation.
- Non washable. Only for dry areas as surface and electrical contacts are exposed.
- Shorter life span and limited 2 years warranty.

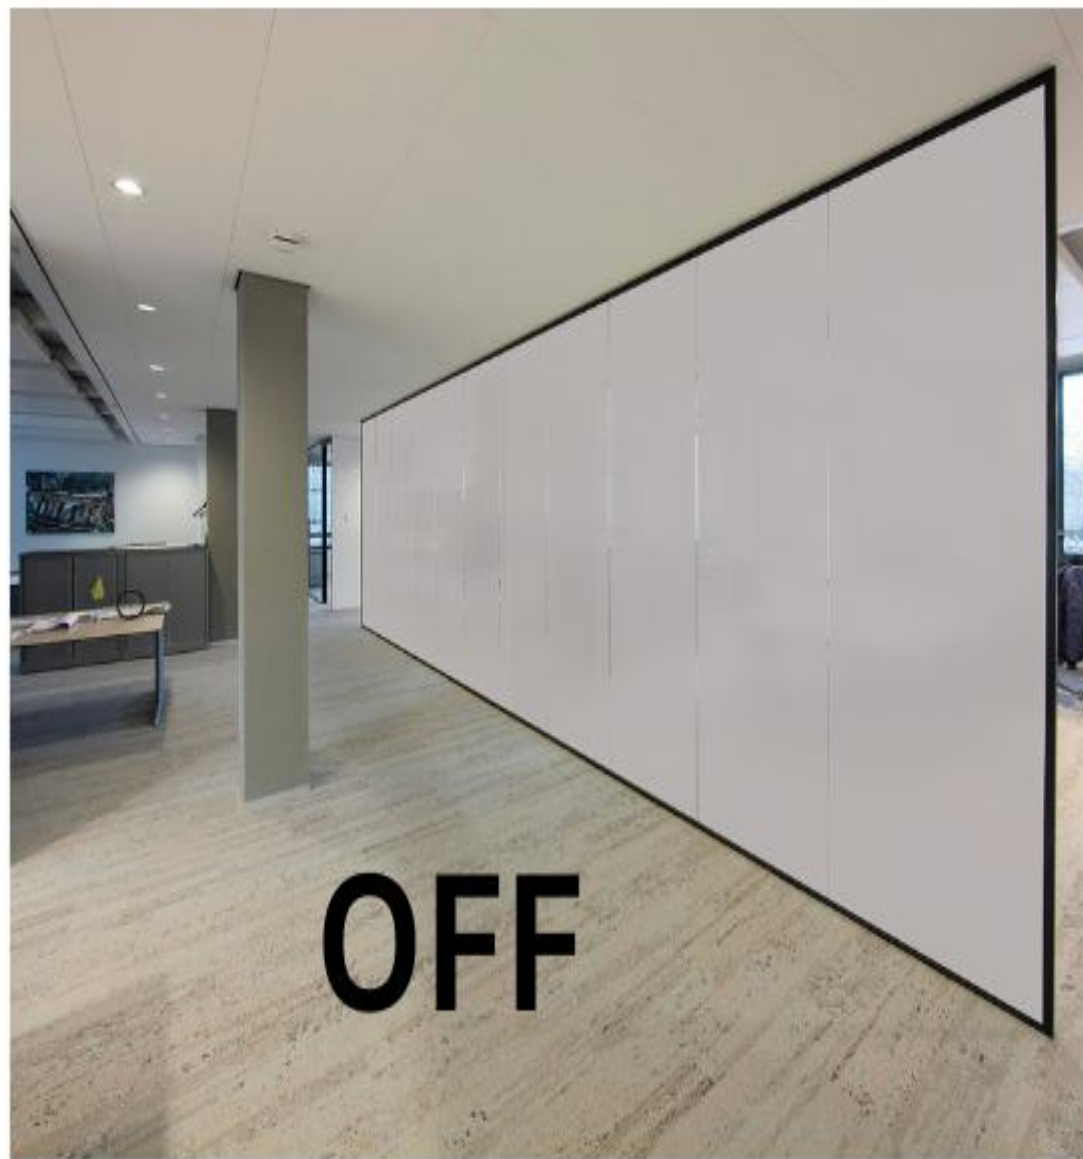

- Laminated between two glasses.
- Completely air tight as film is fully sealed within glass.
- No chance of any damage to the pdlc interlayer.
- The electrical contacts on the pdlc are fully secured between two glasses.
- Waterproof. Glass surface can be cleaned using conventional cleaners or water.
- Longer life span and 5 years warranty on film performance and 10 years warranty against delamination of glass.

The specialist in switchable glass

We meticulously control every aspect of our manufacturing process to ensure that we deliver a quality, made-to-order solution you can trust. Our commitment to excellence begins with the careful selection of raw materials. All our glass is processed and finished in-house, allowing us to maintain the highest standards at every stage. We utilize low iron, premium-quality float glass to achieve exceptional levels of clarity and consistency, making our products stand out in both performance and aesthetics. Our advanced processing techniques ensure that every piece of glass meets our stringent quality criteria. In our dedicated facility, each unit is hand-finished and thoroughly inspected to guarantee perfection. We believe in using only the finest materials to create products that are not only visually stunning but also built to last. Every glass solution we provide is designed with durability and reliability in mind. To further instill confidence in our customers, we ship each unit with our comprehensive 5-year warranty. This commitment underscores our dedication to quality and customer satisfaction, ensuring that you receive a product you can trust for years to come.
